31 October 2021

Summer School 2021

We were delighted to deliver an academically engaging Summer School programme from Monday 9 to Friday 13 August 2021.

Over 100 of our incoming Year 7 pupils from across the city took part in the week, which allowed them the chance to complete transition elements ahead of the start of their journey with us as a student, here at the school.

In receipt of funding from the Department of Education, our students were able to take advantage of a wide range of academic and enrichment based programmes. These included opportunities for students to:

- get to know key members of the team;
- gaining additional support in core subjects (such as Maths, English & Science);
- developing their team work skills with sports-based activities; and
- allowing them to express themselves through wellbeing-based activities within our Creative Arts & Technology Department.

Thanks to the funding we received, we were able to work with a number of key partners from across the city, such as the Guardian Ballers, to deliver a programme that was not only engaging, but supported in the all-important transitional process.

Around 30 members of our staff team, ranging from Heads of Department, Pastoral & Safeguarding and Operations, dedicated their time for the week to give these young people the most engaging week possible, and we are incredibly proud of the difference they made to a particularly difficult transition process for our incoming students.
